FRUIT MEN TO TRY TO SUPPLY CITY DESPITE STRIKE

Stores to Open To-Morrow and Police Aid Asked—Conference On.

An effort to supply New York with fresh vegetables and fruits in spite of the strike of the teamsters and helpers will be made to-morrow by

the big commission merchants.

This was decided to-day at a meeting of the merchants at No. 178 Franklin Street. They voted to open their stores at 6 o'clock to-morrow morning and keep them open until 5 in the afternoon. Police protection will be asked.

The small dealers to get supplies will have to send their own trucks and wagons because of the strike. Many of them are expected to make special efforts to do this because the situation in the outlying districts is described to-day as more serious than at any other moment since the strike. Chairman Lippman of the merchants' organization complained to-day that the police arrangements in the market districts were inadequate. The few trucks that appeared were surrounded by strikers, who, how-

ever, were soon forced back to the sidewalks.

A complete embargo on the shipment of perishable green stuff to New York was in effect to-day. From this time until the strike is over, dealers said, no shipments will be forwarded to New York.

No cars were unloaded last night in the Jersey yard, where 800 cars—60 per cent. of them refrigerators—were still held up to-day.

Commission merchants say the pinch will be felt to-day by householders, hotels and restaurants throughout the city.

Officers of the Army and Navy made it plain that, strike or no strike, they mean to supply the needs of service men in this section. The Navy sent private trucks to West Street under armed guards.

Stringent measures are being adopted by the Board of Health to prevent the sale of decayed fruit and vegetables due to the strike. Commissioner Copeland has ordered his inspectors to examine closely the fruit and vegetables loaded on piers. Thus far only a small quantity has been condemned.
